Meet Eric...

Sales and Marketing Background

Over 20 years ago, Eric started his business life in sales and marketing. He quickly rose through the ranks as a top performer. By 20 his reputation preceded him and resulted in a job offer in Vancouver, Canada with a start up company in the up and coming mobile computing industry. He accepted the job, relocated and became the first full time employee of the company. The business owner had struggled to grow past 'one man band' until Eric joined the team -- over the next five years it would become a multinational with over 100 employees. Eric was instrumental in this growth playing important roles in sales, marketing, recruiting and general management.

Leadership in Business

In 1997 Eric started *The ITR Group*, a wireless integration company in the west of England. Although he started the business in his living room -- and with little capital -- he soon built the company into an industry leading maintainer and integrator of wireless networking and mobile computing equipment. After nine years Eric sold the business to private buyers so that he could pursue other interests including writing, speaking and philanthropy.

Practical Style / Useable Information

Eric's easy-going speaking style and practical business experience make him a truly unique presenter with the ability to both inspire and empower business owners and employees alike to achieve their full potential.

Background Information

Eric was born in South Africa, raised and educated in Canada and has also lived in Ireland, England and the USA. In the last three years, Eric has spoken in over 15 countries. He and his partner, Elise, now reside in the Turks and Caicos islands.

There are EIGHT Ways to Wealth
